# Polytope-Based Interval State Estimation for an Electrochemical Model of a Lithium-Ion Battery

Wissam Khenroune<sup>\*†1</sup>, Thach Dinh<sup>‡1</sup>, Lahme Marit<sup>§2</sup>, Rauh Andreas<sup>¶2</sup>, Van Gorp  
Jérémy<sup>||1</sup>, and Moze Mathieu<sup>\*\*1</sup>

<sup>1</sup>CNAM Paris – Conservatoire National des Arts et Métiers - CNAM (FRANCE) – France

<sup>2</sup>Carl-von-Ossietzky Universität, Oldenburg – Germany

## Abstract

**Keywords:** Interval estimation, Battery electrochemical model, Polytopic approach
